

A modern take on the classic Rolled Edge shape, RE-21®'s fresh lines are now further enhanced by a new bright-white hue. Homer Laughlin's exclusive Arctic White glaze brings a subtle sophistication to any environment, and when paired with RE-21, offers a dramatic stage to give food unparalleled impact. Add Arctic White and you can choose the best of both worlds — a bright white and exceptional durability. Lock-stacking design and a wide range of items make RE-21 the past, present, and future of foodservice.

RE-21<sup>®</sup>

**About RE-21:** A luminous concave cusp creates an enhanced perception of robust depth, yet the underside roll and wide rim ensure that all the classic touchpoints remain comfortably in place.

**About Arctic White Glazing:** A wide and growing selection of items comprises the Arctic White collection. It is not only American made but also lead free — as are all Homer Laughlin China Company products. And, in keeping with our commitment to the environment, it is sustainably manufactured with preservation in mind.
